

Science Analyst- Certified Organic Nutraceutical Company Brattleboro, VT

New Chapter, a small company owned by families and friends, is based in Brattleboro, Vermont and our organic farm is near the Children's Rain Forest of Costa Rica. New Chapter was founded in 1982 with a mission to promote healing through the infinite wisdom of whole foods. We believe Nature got it right the first time. That is, nourishment, protection and health that come from whole food -- not from the synthetic vitamins, minerals and chemical herbal isolates you'll find in most supplements. In fact, we hesitate to even categorize New Chapter products as food supplements. Rather, New Chapter is supplemental food, because it is food.

We carry the distinction of being the supplement industry's first certified organic manufacturer to produce vitamins and minerals made with organic ingredients. We are also committed to supporting and protecting the environment, and our Costa Rican farm is a world model for organic sustainable farming in the rain forest.

Job Summary:

Reporting to the Science & Innovation Manager, the Science Analyst will play a critical support role to New Chapter's Science and Innovation team. Core responsibilities include:

- **Clinical Study Execution & Analysis**
 - Work with world-class external laboratories and scientists to further development of New Chapter's growing library of scientific studies.
 - Assist in development and execution of primary clinical & pre-clinical research trials.
 - Employ statistical and other analytical techniques, summarize results and present findings on primary clinical & pre-clinical research studies.

- **New Product Development**
 - Working closely with team members (internal and external) Supporting development of new products for New Chapter's growing line of dietary supplements.

- **New & Existing Product Education**
 - Research and gather key product data for input into compelling educational presentations, packaging and other applications for New Chapter's innovation, sales and marketing teams.

Ideally, the candidate must have solid knowledge of Excel and preferably Statistics. The individual will work independently yet will have heavy interaction with a team comprised of doctors, scientists, and herbalists. The person must be flexible and adaptable to change.

The Science Analyst is a unique opportunity to join the largest dietary supplement company in the natural products industry. Not only the largest and fastest growing, New Chapter has an unwavering commitment to primary science & breakthrough innovation. A passion for holistic healing (herbs, whole foods, etc.) and interest in dietary supplements is a huge plus.

Candidate Criteria:

- Degree in biological sciences or related experience (Nutrition, Food Science, Microbiology, Herbal and Naturopathic studies).
- Intermediate to advanced level of Microsoft Excel knowledge
- Experience or familiarity with statistics
- Detail-oriented & organized; strong project management skills
- Strong written and verbal skills

This position is a fulltime, 40-hour work week offering extensive benefits and paid time off. For more information about New Chapter, visit our website at www.newchapter.com. Interested candidates, email your resume to careers@newchapter.com.
